

## Retest Policies and Procedures

Retake Policy – If you fail the assessment, you must retake the FUSE exam and complete it successfully. Any participant who fails the FUSE assessment must pay a retake fee to SAGES. You must wait at least 30 days following the original test date before scheduling a retest. If the assessment is still not passed after the first retake, then you must wait at least six (6) months for the next retake (hopefully devoting this time to increased study and experience). After three (3) retakes a whole new registration process is required and the assessment must be purchased and completed anew.

### **If you need to retake the FUSE Cognitive Skills Exam:**

1. Please go to our website at [fuse.surgicalfundamentals.org](http://fuse.surgicalfundamentals.org) to purchase a retest voucher and pay the \$125.00 retest fee.
2. Once you have the voucher log onto [https://www.webassessor.com/sages\\_fuse](https://www.webassessor.com/sages_fuse) and log into your webassessor test taker account. Please go through the same steps you took to register for the exam the first time with the Test Center of your choice. You will *not* need to create another account; you will be able to re-register for the FUSE Cognitive Exam using the same initial account. If you need to refer to the self registration instructions, this can be found on our website at [www.fuseprogram.org](http://www.fuseprogram.org), under the “Testing Information” tab, at the bottom of the page, please select the document titled [Guide: Online Test Taker Registration](#).
